

Monthly update – Clyde and surrounds

23 February 2024

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

Construction activities: March 2024

Tunnelling contractor, GLC will continue major construction at the Clyde site during March. These activities will be carried out during standard construction hours:

- **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**

Work will involve:

- Earthworks, piling, vegetation clearing and removing waste materials.
- Surveying, geotechnical investigations and groundwater monitoring onsite and in nearby streets.
- Installing, relocating and decommissioning utility services within the site and surrounding streets.
- Constructing bridges over A'Becketts and Duck Creek and retaining walls within site boundaries.
- Constructing the dive structure and tunnel portal.
- Constructing Unwin Street realignment within site boundaries.
- Delivery of machinery, equipment and materials to the site.

All hazardous material removal work is being undertaken in accordance with SafeWork NSW guidelines.

Planned temporary road closure: To prepare for Stage 2 of the realignment of Unwin Street, sections of Wentworth, Unwin, and Kay Streets in Clyde will be closed to traffic for one weekend in early-April from Friday night to Monday morning (subject to approval).

The temporary road closure is planned between the intersection of Wentworth and Martha Street and the intersection of Shirley and Unwin Street, see map overleaf. Pedestrian access will be maintained along a pedestrian walkway detour from Martha Street to the corner of Kay and Unwin Streets.

Partial lane closures on Wentworth, Kay and Unwin Street will be in effect for the month of March.

Once approvals are in place, we will notify you again. **For more information, please contact GLC's Community team on 1800 612 173.**

Out-of-hours work

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Out-of-hours work will involve:

- The following works are scheduled to take place **24 hours a day, Monday to Sunday:**
 - Roadheader excavation, lining and support work of junction caverns at Clyde dive until mid 2024.
 - Installing, maintaining, and relocating utility services including piling, excavation, formwork and concrete removal and pours within the site and surrounding streets, until mid 2024.

- Excavation, lining and support work of mainline metro tunnels until mid 2025.
- Delivery of oversized machinery, assembly of equipment and unloading of materials, including spoil stockpiling, until mid 2025.
- Inspecting and maintaining monitoring equipment along the alignment until late 2025.
- Constructing foundational beams for bridges over A'Becketts and Duck Creek involving steel fixing, formwork and concrete pours between **4am and 7pm until mid 2024**.
- Excavation works along Duck and A'Becketts Creek from **6pm to 6am on Monday to Friday until mid 2024**.
- Constructing retaining walls within site boundary, earthworks, piling, concrete pours from **6am to 6pm on Monday to Sunday until late 2024**.

Some activities will generate noise and this will be minimised as much as possible. Access to property and businesses will be maintained at all times.

Out-of-hours activities are in line with Road Occupancy Licence and Transport for NSW requirements to work in the road corridor and movement of oversized vehicles.

Changes to traffic, pedestrian and cyclist routes include:

- Traffic control and signage to assist motorists, pedestrians and cyclists with changes to traffic conditions, including contraflow, boom gate operations, temporary barriers, and stop-slow traffic control.
- In preparation for the upcoming Unwin Street closure, temporary lane closures on Wentworth, Kay and Unwin Street will be in effect during the day and night. Access will be maintained by traffic control in both directions.

Clyde work area

Equipment used: (but is not limited to) cranes, piling rigs, generators, roadheaders, tunnel boring components, bolting rigs, trucks and dogs, light vehicles, drill rigs, dust scrubbers, compressors, excavators (including attachments), dozers, shotcrete machines, concrete agitators, concrete pumps, vacuum trucks, vibratory roller, chainsaws, mulchers, road saw, traffic control devices and survey equipment.

Out of hours work over the next three months are detailed in the table below.

Activity	Location	Noise impact	March	April	May
Construction of bridges and retaining wall	Clyde area	Low to medium	•	•	
Unwin Street realignment	Unwin, Kay and Wentworth Street	Low to medium	•	•	
Oversized machinery, equipment and material deliveries	Entrances on Unwin Street and Wentworth Street	Low	•	•	•
Utility upgrades and installations	Clyde area	Low to medium	•	•	•
Tunnelling excavation, lining and spoil movement	Clyde and Rosehill areas	Low to medium	•	•	•
Inspecting monitoring equipment	Rosehill, Silverwater, Newington and Sydney Olympic Park	Low	•	•	•
